I. Program Introduction

1. Brief introduction

1) Academic Education Programs Sponsored by the Ministry of Commerce of the PRC

Academic Education Programs sponsored by the Ministry of Commerce of People's Republic of China started in 2008, which is designed to foster high-end, business officials and managerial personnel for developing countries, offering one-year and two-year master programs as well as three-year doctoral programs for the purpose of educating high-end, interdisciplinary and applied talents in the fields of politics, economy and trade, diplomacy, agriculture, science, education, culture and health, energy and transportation, and public administration etc., building intellectual capacity and facilitating the economic and social development of the developing countries.

These programs provide assistance to governmental officials, research fellows, and senior managerial personnel on their master's and doctorate education in China, which are fully conducted in English. Admission requirements include a bachelor's degree, relevant working experiences, and healthy physical conditions, which is essential for the intense study required for the degrees.

As a result of the positive effects brought by these programs in strengthening economic ties and friendship between China and other developing countries, these programs are highly valued by the local government.

The program provided by Sun Yat-sen University is based on Chinese governance, leading students to explore Chinese public management and policies from the five dimensions of society, economy, history and culture, law, and politics. We insist on inheriting the tradition of Sun Yat-sen University, highlighting the characteristics of the Chinese MPA degree, exploring the experience of "Chinese governance" and promoting the Chinese road in the overall process of program operation. In the teaching arrangements, we strive to guarantee teaching quality and scientifically organize courses. In addition, our university makes full use of regional advantages to arrange social practice for students: one course fieldwork for each professional course, and social practice outside the province before graduation.

2) Prospective Students

Our prospective students are government officials at or above the department level, the head of an academic institution at or above the dean level, or an administrative officer from other public sectors of a comparable level, who have demonstrated

superior performance in their work and sufficient English proficiency to conduct their study. By the time of matriculation, each must have obtained an undergraduate bachelor's degree.

3) Program Objective

To foster high-end, interdisciplinary and applied talents in the fields of politics and public administration; to foster leaders with solid policy analysis skills and a global perspective who can handle complex national affairs.

4) Admission Plan

In 2025, the MPA-CGDC program plans to enroll up to **25 students**, which will last for one academic year, and the teaching language is English.

5) Scholarship Coverage

The Chinese Ministry of Commerce will provide "Chinese Government Scholarships" to admitted students from developing countries. The scholarship covers both tuition and living expenses, and the school offers free accommodation during the one-year study duration. The school will purchase medical insurance for students coming to China.

The scholarship also includes one-round-trip international airfare for all students (one time per year set at the end of an academic year). In terms of living expenses, it is 36000RMB/year for each master's student (paid monthly according to the student's actual time in China). There is also a settlement allowance of 3000RMB/person, which is a one-time payment (settlement allowance is only paid when students arrive in China).

The Chinese Ministry of Commerce only offers scholarships during the normal study period, i.e. the scholarship covers ONLY one year's tuition, accommodation (utility bills are NOT covered by the scholarship), and monthly stipends. The scholarship will NOT be offered if students need to extend their study period.
