

Board of Directors - Civil Service College Mauritius (CSCM)

The Civil Service College Mauritius (CSCM) has been incorporated as a private company with the Government of Mauritius as sole shareholder. The Government has approved, as per Cabinet decision taken on 13 February 2015, the composition of the CSCM Board of Directors.

The CSCM main objective is to meet the demand for training for employees of public sector organizations, including implementation of high level management development programmes. It is also expected to organize seminars/workshops at both local and regional level and in partnership with regional and international institutions. The medium to long term expectation is for the college to develop into a regional centre of excellence in public sector management and governance.
