SCHEME OF SERVICE SPECIFIED UNDER REGULATION 15 OF THE  
PUBLIC SERVICE COMMISSION REGULATIONS, 1967

Department: Civil Aviation

Post: Principal Engineer (Airworthiness) *[Restyled as Divisional*

Salary: ~~Rs 15,500 x 500 - 17,000 (TEL 20)~~ *Head (Airworthiness)]*  
~~Rs 10,200 x 300 - 11,100 (TEL 20)~~

Effective Date: 5th December, 1989

Qualifications: By promotion, on the basis of experience and merit, of an officer from the grade of Airworthiness Engineer having at least five years' experience in the grade and having administrative ability.

Note:

For the first intake, consideration will be given to Engineers of the Department who are registered as Professional Engineers of Mauritius, under Section 13 of Act No 49 of 1965 as subsequently amended, and who reckon a minimum of five years' experience in the grade and who have:-

- (a) during their service in the Department performed airworthiness duties for a total period of at least three years;
- (b) followed courses in the field of airworthiness overseas for an aggregate period of not less than six months including basic aircraft maintenance training; and
- (c) acquired experience in the inspection of aircraft maintenance facilities, its documentation and maintenance schedules, the qualification levels of its personnel and associated regulatory aspects of airworthiness. Such experience should have preferably been acquired under the guidance of airworthiness experts.

Duties:

1. To ensure that aircraft registered or maintained in the State of Mauritius meet airworthiness requirements and that persons holding maintenance engineers licences meet minimum standards.
2. To be responsible for the general supervision of the Airworthiness Division and providing advice to the Director on all airworthiness matters, including the training of airworthiness staff.
3. To promote compliance with airworthiness regulations and directives.
4. To report breaches of regulations and directives to the Director and take such measures required by the Civil Aviation Regulations.
