Ministry of Civil Service and Administrative Reforms
Circular Letter No. 20 of 2015
E/41/13/01/82

From: Senior Chief Executive, Ministry of Civil Service and Administrative Reforms

To: Supervising Officers in charge of Ministries/Departments

Implementation of HRMIS Project - Performance Management

The Human Resource Management Information System (HRMIS), which is a major reform programme for the Civil Service, has reached a crucial stage of its implementation. The focus is now on making the Payroll and the Core Human Resource (HR) Modules functional by the end of this year. As such, it is planned for the Payroll Module to be made available for testing purposes in all Ministries/Departments as from October 2015 and for the Core HR Module to be piloted as from November 2015 in some 10 Ministries/Departments. Thereafter, the new Payroll system would go live in early 2016 and the HR Module would be made functional in a phased manner.

2. Attainment of the above objectives is highly dependent on the sustained efforts of all officers who are directly or indirectly involved in the HRMIS Project. In this respect, officers of the Human Resource (HR) and Financial Operations Cadres, as main users of this system, have a crucial role in ensuring the successful implementation of the project. It is worth pointing out that this Ministry has, so far, carried out several working sessions during which emphasis was laid on the level of responsibility required on the part of officers of the HR and Financial Operations Cadres. Moreover, other training sessions on the use of the HRMIS are also planned in the coming months.
3. In light of the above, it has been decided that, with the start of the new Performance Management Cycle as from 01 July 2015, which has been aligned with the financial year (July - June), implementation of the HRMIS should constitute a core duty, and as such, a Key Result Area (KRA) in the workplan of all officers of the HR Cadre and that of their respective support staff. Furthermore, in consultation with the Financial Secretary, it has also been decided that the implementation of the Payroll Module under HRMIS, should constitute a Key Result Area (KRA) in the workplan of officers of the Financial Operations Cadre and their support staff involved in the preparation of the Payroll. For the sake of convenience, some examples of Key Tasks and related Performance Standards under the new KRA are proposed at Annex for guidance of all officers of the HR and Financial Operations Cadres and may be customised according to work situations and levels of responsibility.

4. Supervising Officers are requested to arrange for the above instructions to be conveyed to all officers working in HR and Finance Divisions and ensure that they are strictly complied with.

5. We rely on your understanding and cooperation for moving ahead with the HRMIS.
